Welcome ON BOARD

40 years of snowboard culture in Switzerland

22 December 2019 – 13 April 2020

In the early 1980s, the first Swiss bought and tried out snowboards made in the USA. Since then, much has happened in this sport – the former outsiders now take part in the Olympics and race down the steepest slopes of Alaska. The exhibition “WELCOME ON BOARD. 40 years of snowboard culture in Switzerland” provides insights into this youth and sports movement from its beginning to today.

The focus is on the development and construction of equipment, on people who left their mark on snowboarding as well as on the aesthetics and presentation of this youth culture in pictures of various well-known photographers from different decades and countries. The exhibition was developed in close co-operation with big names of the snowboarding scene.
