Welcome ON BOARD

40 years of snowboard culture in Switzerland

4 July – 25 October 2020

SUMMER EDITION

*What do snowboarders do in summer? This question is additionally addressed in the summer edition of **WELCOME ON BOARD. 40 years of snowboard culture in Switzerland.** The cinema also offers a new programme with fresh productions and gems from the early days.*

The exhibition provides insights into this youth and sports movement from its beginning to today. The focus is on the development and construction of equipment, on people who left their mark on snowboarding as well as on the aesthetics and presentation of this youth culture in pictures of various well-known photographers from different decades and countries. The exhibition was developed in close co-operation with big names of the snowboarding scene.
